

Secure Remote Access with Multi-Factor Authentication (MFA)

TYPES OF USE CASES

Secure Remote Access to:

- Firewall, VPN, SSL, Windows
- Financial / Accounting System
- Human Resource System
- Business Web Portal
- Switches

As businesses grow more international and employees and clients more mobile, quick and efficient dissemination of information is crucial for businesses to stay competitive.

Unfortunately, the proliferation of threat from hackers, viruses and malicious software poses challenges in maintaining a stream of readily available information, as well as managing the information transfer securely to eliminate or mitigate security breaches.

MFA is the simplest and most effective way to make sure users really are whom they say they are. It is an industry-accepted solution for remote user authentication.

SendQuick provides the ideal solution for companies seeking low-cost and seamless MFA implementation. It comes built-in with SMS OTP, Soft Token and Email OTP with Authentication and Authorisation (AA) capability.

Easy Deployment with SMS OTP, Mobile Soft Token, Hard token, Push Notification and Email OTP

- Wide variety of authentication options
- Low maintenance for companies
- Soft Token is immune to latency, network coverage, and delivery issues
- Convenient, easy to use and affordable
- Industry accepted solution for secure remote access

Authenticators and Authentication Methods Supported

- Digital ID eg. SingPass NEW
- FIDO2-capable YubiKey NEW
- Biometric Authentication NEW
- SendQuick App
- Microsoft Authenticator
- Google Authenticator

Wide Support for Different Database Servers

- Checkpoint SSL VPN
- My SQL
- SQL Server
- PostgreSQL
- Oracle
- RADIUS
- Microsoft Active Directory (AD)
- LDAP

Secured Remote Access Solutions Supported

- Checkpoint SSL VPN
- Cisco SSL, VPN
- Juniper SSL VPN
- F5 SSL VPN
- SonicWall VPN
- Citrix Netscaler
- VMware View
- MS Windows Login
- Palo Alto SSL VPN
- SSL VPN/Firewall/Devices that support RADIUS or SAML

Protocols for Authentication

- SAML
- RADIUS
- API

OTP & Alert Notification

RADIUS / SAML / API

Systems & Applications

SSL VPN

Windows Desktop

User Databases

Active Directory(AD)

CLIENT TESTIMONIALS

Allows our agents to securely access our B2B portal while our employees can securely connect to our web servers with peace of mind. Tokenless and not needing installed client-wares has helped increase our ease of management and lowering of our Total Cost of Ownership (TCO).

Lim Koon Chai
CIO, Sompoo Insurance Singapore

Easy to implement and zero maintenance afterwards. SendQuick provides flexible connectivity and simple customization to integrate our existing systems. It makes our services more secure with minimal effort.

Andy Wong
Head of Information Technology, FTLife
